## Discover M-DOT-T6

the latest touch panel from Ampio

It's more than just a new panel – it's a new way of managing space. M-DOT-T6 combines modern design, intuitive operation and extensive customisation options. Designed for users who value technology and aesthetics in one.

### ■ FULLY TOUCHSCREEN DISPLAY

Up to 6 screens and as many as 20 widgets in one panel – everything under your control.

### ■ WIDE RANGE OF WIDGET OPTIONS

From simple switches to advanced temperature controllers.

### ■ INTUITIVE OPERATION

Effortless configuration – edit, move, change.

### ■ FULL CUSTOMISATION

Freely change colours, widget layout and interaction methods.

### ■ LIGHT AND DARK THEMES

Dynamically change the appearance of the panel throughout the day.

### ■ RGB COLOURS

Full colour palette for visualising device statuses.

### ■ CUSTOM ICONS

Add your own icons for a cohesive design.

### ■ GLASS COLOUR

The panel is available in many colours – match it to your interior.

# AMPIO automation – why are we worth it?

Smart solutions for private and commercial buildings are becoming increasingly popular. When designing modern interiors, the focus is on maximising their practicality, combined with comfort and visual appeal. One of the main roles here is played by the lighting. Thanks to the use of multiple light spots with a dimmer functionality, you can create a perfect scene for any occasion. However, the more luminaires installed, the more cabling is required and that means more wall switches, which are not aesthetically pleasing.

With the AMPIO smart installation, all electric circuits and automation elements integrate into one coherent system. You can manage it with the use of stylish AMPIO touch panels, or remotely via a dedicated mobile application.

We boast over 20 years of experience in the manufacturing of electronic components. Our system is designed and manufactured entirely in Poland. Currently, Ampio's distribution network spreads over 20 countries worldwide and is persistently expanding. We are certified to ISO 9001, which is an assurance of the highest quality. Our products have been working without breakdowns in thousands of buildings over the past years, which is why we offer a 5-year warranty that can be further extended to 8 years.

Warranty  
up to 5 years

# AMPIO benefits

LEARN ABOUT WHAT YOUR  
CLIENTS GAIN FROM  
IMPLEMENTING AMPIO  
AUTOMATION IN THEIR HOUSES

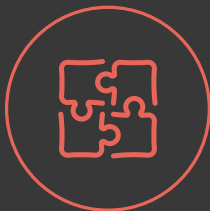

## Savings

- Reduced energy consumption  
= reduced costs
- Lighting automation  
– integration with motion sensors
- Temperature control in each room,  
adjusted to current needs

## Safety

- Integration with video surveillance
- A possibility of instant response to  
unwanted occurrences, thanks to  
integration with e.g., flooding, smoke,  
or motion sensors

## Integrations

- A possibility of controlling all integrated  
systems from one place
- No need to have separate panels  
and applications for different systems
- Advanced integrations possible with e.g.:
  - audio systems
  - electric car chargers
  - motion, flooding, and smoke sensors

## Comfort

- A living area that understands the needs  
of all household members perfectly
- Environment-friendly house
- Stylish and modern design  
– multifunctional Ampio Smart Panels
- Managing all functionalities in one  
place, or remotely via an app

## FIND OUT WHAT YOU CAN GAIN FROM WORKING WITH AMPIO:

ASSISTANCE AND  
TECHNICAL SUPPORT  
AT EACH DESIGN STAGE

PERSONALISED  
APPROACH TO EACH  
CLIENT, TAILOR-MADE  
SOLUTIONS

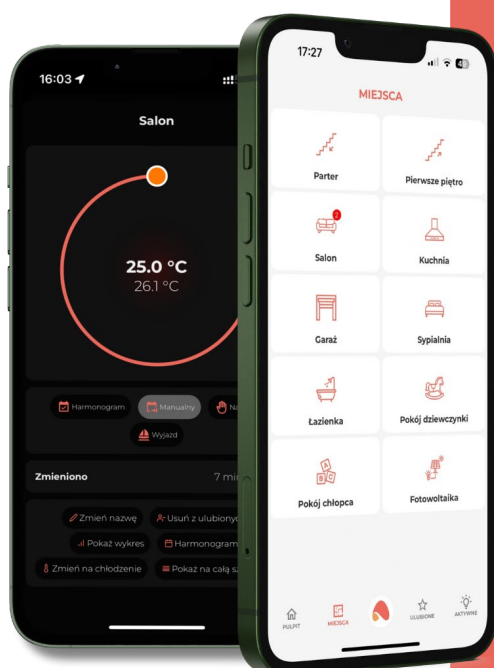

SLEEK DESIGN  
OF THE GLASS  
TOUCH PANELS

CUSTOMER  
SATISFACTION

COOPERATION WITH  
A POLISH MANUFACTURER  
CONTINUOUSLY EVOLVING  
ITS PRODUCTS

## WHAT DO YOU GAIN?

The Ampio UNI mobile app grants you absolute control over all system functionalities from any place in the world – all you need is internet access. The app will let you see what is going on at your house, will facilitate welcoming new guests in your rental apartment, or will help you warm up your holiday cottage before your arrival. The application allows you to manage multiple properties in one place.
